Brandon Meyer 402-469-0439 | bkmeyer@gtmc.net

4MANGUSFARM.COM

I would like to personally invite you to our 17th annual bull sale and thank you for taking the time to look at our offering! With the much-needed moisture we have received and the outlook of the cattle futures, I would say things are looking brighter and a tremendous cattle year is on the way. With the nation's female numbers near an all-time low, the future looks promising for some profitable years ahead! I must start out by thanking all my family. My wife, Kami, and our 2 daughters Kyra and Kasey, all play a huge part in our operation, and we could not get done what we do without the tremendous amount of work they all put into it. We also must thank our parents for all the work and time they spend helping. Whether it be feeding cattle, helping on the farm, or running kids here and there, all their help is greatly appreciated! Having Kyra and Kasey off to college has lessened the time they can spend on the farm, but I cannot thank my wife, Kami enough for all the hours she puts in! Kasey spends most afternoons after class and weekends in the barn and around the farm working and helping us with anything and everything and working with her own cattle. Finally, we must thank Blake for all his help throughout the year. He is a huge help with anything we ask of him, and we appreciate all that he does for us!

The bulls being offered this year are a tremendous set of stout, high performing, easy doing bulls. This will be the largest group of heifer bulls we've ever offered! Our bulls are fed right and built for longevity. Our bulls are not crept fed, so their weights are true and show their genetic potential. Feet and legs are extremely important to us, and our bulls are fed a high roughage diet with the idea of lasting longer and being problem free for a longer period. All the bulls selling will have 50k data collected on them and will be posted in the catalog. We hope this gives our customers more confidence, and aids in the selection of their bull. We do not chase numbers or the latest fad in choosing our sires. We look for highly maternal sires that will put females back in the herd with longevity for our customers and feeder calves that earn them a premium at sale time. We take immense pride in the bulls we offer you and only offer the top 1/4 of our bull crop born. This ensures our customers are getting the best bulls for their money and not just a "average" bull! Our bulls this year are as even from top to bottom as any set we have ever offered. I believe this is one of the deepest and most uniform sets of bulls ever offered for sale here! There are bulls that range from being calving ease oriented to more high-performance bulls. I always tell Kami, if I would not want to use them, we are not going to try and sell them to someone else!

I would like to invite anyone and everyone to stop by and see the dams of all the bulls selling and the many full sisters to our E.T. bulls. These cows are the backbone of our herd, and we would be excited to show them to any of our past or future customers. They are the reason we are so confident in what our bulls can do to improve herds of our customers across the country! Show me a genuinely good bull and I can guarantee there is a rather good cow behind that bull.

I want to again thank Hans, Erik, Kurt, Dirk and the rest of the family for once again being a part of our sale and bringing us a tremendous set of bulls. The Burkens are as good of people as you will find anywhere, and we thank them again for bringing us a tremendous set of Sim influenced bulls.

Our sale will begin at 2:00 on Sunday, March 10th and we will serve a complimentary lunch beginning at 12:00. If you should have any questions about any of the bulls, please feel free to contact Hans, Erik or myself. Our place is always open to visitors, and we hope to see you on the 10th.

Brandon Meyer

SUNDAY, MARCH 10, 2024 - BLUE HILL, NEBRASKA

BURKEN CATTLE CO | 1987 Road 1800 | Blue Hill, NE 68930
Hans Burken 402-469-1966 | hansburken@gmail.com

BURKENCATTLE.COM

We would like to personally invite all of you back for our 17th annual bull sale on March 10, 2024. As always mother nature sure knows how to keep us on our toes. After the hot, dry summer last year, currently at this time of writing our moisture levels and chances look to be improving. We can only hope that she keeps the moisture coming and we all can see lots of green grass and a wonderful harvest.

This years offering has something for everyone. We keep striving for balanced, problem free cattle with minimum inputs and labor. We don't chase to the extremes on any trait and feel our herd is an example of that. Again this year the bulls have lots of muscle shape, length of body, and carcass traits that will work in everyone's herd. All the bulls have Genetically Enhanced EPD's in addition to ultrasound data and coat color testing. The bulls will have passed a fertility test and all information will be available sale day.

Thanks to Brandon and Kami for another year of friendship. It is always a pleasure working with you through the year and getting your insight. We would also like to thank our families for their patience and love. You keep us grounded and lighten the days of hard work and late hours. And thanks to the crew at Darr Feedlot. The bulls have been developed there for years and the crew has done an exceptional job again this year.

If you have any questions please don't hesitate to call. We will see you sale day.

Hans and Erik Burken

FREE CARE

All bulls will be cared for and wintered free of charge until March 30. Bulls picked up within 3 days of the sale will have \$50 deducted from the price.

LIABILITY

All precautions will be taken to protect the safety of everyone attending the sale. However all persons attending the sale do so at their own risk. Neither 4M Angus nor any of the sale staff assume any responsibility or liability, legal, or otherwise for any accidents occurring on or about the premises.

CATALOG DESIGN & PHOTOGRAPHY

Honor Ag Branding & Carlee Meeks Rutt

GUARANTEE

Buyers of all bulls selling for \$3500 or more are guaranteed against breeding injury for the first season. Breeding season is defined as the 90-day period following the turnout of the bulls. If a replacement bull is available, one will be provided or if the buyer prefers, credit towards one bull will be given in the following year's sale, less salvage value of the injured bull or \$1500, whichever is higher. This is not a life insurance policy. It does not include loss due to neglect, sickness, or an act of God (lightning, flood, etc). If any problems or issues arise, please contact us within 48 hours.

TERMS & CONDITIONS

All cattle sell under a 100% satisfaction guarantee from 4M Angus and under the terms and conditions of the American Angus Association.

HERD HEALTH

The bulls are on a complete health program. They have had pre-weaning and weaning shots and have been vaccinated with IBR, BVD Type I and II, P13, Pasturella, 7-way, Haemophilus, and Decotmax injectable. All bulls have been scrotal measured and have passed a semen test done by Dr. Jeremy VanBoening of Republican Valley Animal Center at Alma, NE.

FREE DELIVERY

Free delivery will be done on all bulls up to 150 miles. After the 150 miles you may be asked to meet at a central location or arrange for delivery of your bull.

ONLINE BIDDING

The sale will be broadcast live on DVAuction.com and videos will be available on their website as well. Please register a few days in advance of the sale. Call the office at 402-316-5460 with questions.

Insurance Available

We feel that your bull purchase in our sale is an investment in your herd and in your bottom line financially. Just as most of us insure our crops, farm equipment, cows and other things, we wanted to be able to help you insure your bull purchases from us and protect your investment. This is something new we are helping our customers with but something Hans and I believe in and would highly recommend for everyone to look into. Hans or I will split your insurance premium with you 50/50 for the first year and this will take care of your guarantee on your bull. We feel this is the best avenue to better protect you, our customer, and your investment now and into the future. Any questions feel free to contact Hans or myself on sale day.

A tremendous herd sire candidate from Incentive to lead off our sale! This bull is full of red meat and has a great deal of mass and power throughout. He is extremely level down his top and wide based from front to back. His genomics show he is in the top 1% of the breed for weaning and yearling growth. With his outcross pedigree and highly maternal attributes this is a bull for anyone. One of our favorites for sure!

Little bigger framed Incentive son with good growth numbers but still has that highly maternal profile.

8

Flush Brothers

9

FLUSH BROTHERS LOTS 7-9 are all flush mates out of one of our favorite daughters of Poss Element. These brothers are all very similar in their makeup, muscle dimension and growth numbers. They will be some of the most maternal bulls in the sale we will offer! With a \$M over 100 and HP epd's at the top of the breed, they will be bulls to build a cow herd around. Their dam is a easy fleshing 6 frame cow with a excellent udder structure and plenty of milk.

A thick made, moderate bull with tons of shape down his top and excellent growth numbers. Another highly maternal bull who's dam is the picture perfect Angus female!! Keep every female from this one!

A FEW OF THE MOST *maternal bulls* IN THE OFFERING!

Reference Sire

Flushmate to lots 11 and 12. Superb growth spread on this power bull!

Flush Brothers

FLUSH BROTHERS LOTS 11-13 We lead off our Thedford sire group with a set of flush mates out of our great 2032 cow! This bull is definitely another sale feature and one that has had many friends. His growth and EPD profile is 2nd to none in the sale! He ratioed a whopping 117@weaning and 115 at a year and was the heaviest weaning and yearling bull on the farm this year. With an actual weight of 1610 on Feb 1 this bull can add pounds and dollars to anyone's operation. Another top notch herd sire candidate.

A little more moderate made calving ease son of Thedford. His Capitalist dam is as good as they come! She is a easy fleshing perfect uddered, heavy milking daughter of our great 9400 cow who's bulls were past high sellers. Definite heifer bull candidate.

Flush Brothers

FLUSH BROTHERS LOTS 16-18 We lead off our Accomplishment sire group with a trio of flush mates from the greatest cow we've ever owned, 2004. 2004 is now on to greener pastures so these will be the last direct sons ever offered from her. She had a progeny ratio of 109 for nursing and 105@ a year on 5 calves. These sons will offer excellent growth in a low birth weight package with tremendous foot shape and structure. Very, very complete set of brothers that would be a complement for anyone's operation!

Hands down one of my favorite heifer bulls in the offering! The Ace daughters are making absolutely tremendous mama cows and are without a doubt the best young cows in our herd. This bulls structural integrity and phenotype is something that I wish we could replicate with every calf ever born! He is so easy and free moving in his skeleton and tremendous down his spine. He puts all that soundness and structure into a low birth weight high growth package that will be around for years and years!! Ratioed 103 and 109 for weaning and yearling. 50K data and updated EPD's will be available before the sale.

Another sure shot heifer bull with an actual birthweight of 70 lbs and a double digit CED. Traces back to the great 2004 cow and has excellent growth figures to go along with his low birth weight.

The one and only son of Barricade in our sale this year. With this bull's sire being deceased and the semen in short supply, this will be one of the last opportunities to purchase a son of him. This bull is really, really good! He is extra stout and has tremendous depth of body and puts it all into a highly maternal, high growth package. His dam and granddam are some of the most consistent producing cows we own. No matter what we breed them to, they always crank out a good one.

OUR ONLY *Barricade* SON THIS YEAR!

We lead off the Justice sire group with one of my absolute favorites in the sale! This calving ease bull is one that is easy to find on paper and in person. He goes from 0.4 at birth to 168 at a year and had a weaning and yearling ratio of 103 and 113 respectively from a gorgeous first calf Patriarch daughter. The Justice bulls are calving ease bulls with excellent structure and a tremendous look to them. They will be highly maternal bulls while also adding more carcass to their offspring.

Excellent heifer bull here!

CALVING EASE BULLS WITH A *tremendous look!*

A low birth, good growth type of heifer bull that will be easy to find and like on sale day! This bull had an adj YW of 1524 but is still so smooth through his shoulder and good in his structure that he would be one to keep every female from. Another bull out of a top young Ace daughter that is hard to fault structure wise and who's longevity will be a tremendous asset to anyone. 50K data and updated EPD's will be available before the sale.

A Justice son that has more growth and performance than others. He will be a bull that still is extremely smooth made through that front 1/3, but then has more base width and growth then his contemporaries. Very good carcass EPD's and figures across his EPD profile. Ratioed 104 at weaning.

A heifer bull that is huge topped and has as much shape and dimension to him as any heifer bull we will sell. This bull had a 66 lb actual birth weight and comes from another tremendous Ace daughter!! Take a look at his EPD profile of .4 to 154 and it is easy to see why this bull is a favorite, not only on paper but in person.

Another double digit CED and low birth, high growth heifer bull! The Justice calves come extremely easy and had good early vigor. They are smooth shouldered and have the right shape to them to be that worry free calving ease bull. This bull is another that fits the ideal mold in what we like to offer for heifer bulls.

The one and only Ace son in our offering. The Ace bulls have been some of the most popular and easy to sell bulls anywhere the past few years. They are full of muscle and their structural soundness and integrity. This bull calf from him has all that shape and muscle that Ace sires along with the extra look. He is extremely good in his hip structure and down through his lower 1/3. Very good bull here.

OUR ONLY *Ace* SON THIS YEAR!

A son of Wildcat out of our great 2004 female. This bull has tremendous growth figures to go along with a carcass profile that anyone who finishes cattle will want to take a look at. One of the highest \$G bulls in the offering and one that will add tremendous premiums to his offspring in the feed yard. 76 lb actual birth weight.

Another high marbling, high growth son of E&B Wildcat. We chose Wildcat for his carcass merit that he adds for our customers who finish their cattle out and sell on the grid. These bulls will add tons of premium and dollars when they hit the rail. This bull still has very good growth numbers to go along with his excellent carcass EPD's.

The one and only Iconic son in the offering out of the great 2004 cow. Iconic is another bull that will add carcass premiums and change that EPD profile in a single generation. I love the muscle and shape in this bull and how free and easy he moves about. Although this is the only Iconic in the sale, don't overlook this bull. The Iconic's are making very good mama cows and add a lot of value to one's herd.

A son of the Genex sire, Boyd Justification. These calves are low bw cattle with explosive growth! This bull has a ton of muscle shape and expression throughout and has a disposition that is as good as it comes. His 2 year old Jumbo dam has already entered the donor side and will have bulls for years to come in the sale. Her Craftsman bulls will be sure sale features in next years offering. Very, very good bull who is one of the younger bulls in the sale!

A bull that should by no means be towards the end of the catalog!! He ratioed 109 at weaning time and 105 at a year with a adj yearling weight of 1488 pounds. This bull has tremendous growth figures and adds tremendous value all the way across the board when it comes to his EPD profile. He his a high maternal, high growth bull that also adds a good deal of carcass merit to his offspring. A bull with very few holes is a good way to describe this one!

3/4 SM 1/4 AN • Homozygous Black This bull needs to be on everyone's shortlist. Starting with an 83-pound birthweight exploding to impressive ratios across the board of 120 WW, 113 YW, 113 IMF, and 115 REA. Very long bodied, deep, high growth Genesis son. 12 traits in the top 30% of breed, top 1% EPD's of the breed for WW and YW and top 20% API. Dam is a very moderate, good uddered female who always outproduces herself.
